PROPOSED CHANGE TO RIGHT OF WAY

Approximate Value _____

Description of work to be performed (Include drawings):

Approximate date of work performance _____

MISS DIG must be notified before work can begin.

For work within the right-of-way requiring inspection by building, electrical, mechanical and/or plumbing inspectors, appropriate permits must be obtained prior to the start of work and inspections must be requested prior to completion of the work according to Chapter 18, buildings and building regulations.

All work within the right-of-way shall be under the purview of the village department of public works (DPW) to assure that connections to village infrastructure are properly completed and that streets, curbs, sidewalks and finished grade within the right-of-way have been restored to their prior condition. The village DPW shall be contacted by the property owner or contractor prior to covering or altering any infrastructure within the right-of-way.

(Ord. No. 2016.09.02, 9-12-2016)

I certify that the information submitted, and the accompanying attachments are true and correct to the best of my knowledge.
